

Prem Kumar K

Motivated and detail-oriented Computer Science & Engineering student (Integrated B.Tech–M.Tech, Cyber Security specialization), currently in the second year of study. Equipped with a strong foundation in web application development, cryptography, computer networks, and database management systems, including hands-on experience with MySQL. Actively enhances practical skills through participation in Capture The Flag (CTF) competitions, demonstrating a proactive approach to real-world cybersecurity challenges. Eager to apply technical knowledge and problem-solving abilities in dynamic, security-focused environments.
